

ARTLINE GROUP

WELLNESS *in* ART

ABOUT US

Established in 1978, we are known for our vast years of experience and providing unique solutions to the most complex requirements. Our production facilities geographically located throughout the country, can save on both lead time and cost. We are your turn-key provider of art and mirrors, from design to production to installation.

Artline Group is committed to the highest performance of service and products. We are proud Corporate Partners of organizations such as NEWH, which supports the growth of talent in the design industry. The combination of our experience with the drive to keep learning and innovating makes us a leader with the latest trends and products in the industry.

HEALTHCARE

In any environment, Artwork is a powerful tool that sets visual tone. Artwork can complete a space, tell a story, and illustrate the unique personality of any locale. As our brain subconsciously processes the designed environments we encounter in our daily lives, Artwork provides visual punctuation that can drastically change our perception of the world around us.

In Healthcare environments, in particular, Artwork takes on a critical role by reinforcing themes of life, wellness, comfort and positivity. Long corridors, bustling motion, and technical equipment can make Healthcare environments feel foreign, cold, scary, and mechanical. By adding artwork, we can make any space feel more like a home.

Colorful emotion, familiar imagery, and nature invigorates the senses and guides us toward positive thinking. In any scenario, Artwork is there to energize us when we need a little joy.

PROCESS

1

PROJECT BRIEF & PROBLEM SOLVING

First, you'll get connected to a Project Manager and Art Consultant who will process the scope of your project. To be sure we understand your artwork needs, we'll take notes, ask questions, and request design materials and/or inspiration.

2

ART DEVELOPMENT & GRAPHIC DESIGN

Then, our team will work with our Graphics Department (behind the scenes) to develop and deliver a preliminary artwork package. Once reviewed by you, we happily revise the artwork until you feel that it is ready to go!

3

ART APPROVAL & LOGISTICS

Next, we nail down the project specifications and provide a quote based on the quantity, finishings, imagery, medium, matting, and size for each item. When you're ready to order, we prepare a final contact sheet for your review and approval.

4

FRAMING & DELIVERY

After the final contact sheet has been approved, your artwork heads to production and is on its way in roughly 3-6 weeks. If you're on a tighter timeline, please let us know and we'll make it work.

MEMORY ART

LIFE STATION & ACTIVITY CENTERS

Life Stations are a unique tool found in Memory Care communities. These stations are often created with objects and furniture for each specific skill. Designed to be interactive and spark fond memories in residents, Life Stations help residents to feel calm and retain a sense of normalcy.

By feeling, using and sharing commonplace items, residents can actively practice the daily routines and life skills that were previously part of everyday life. From typing on a typewriter to folding clothes, practiced actions can guide our minds to memories.
